Embedding BPMN Quick Guide

You can deploy the BPMN Quick Guide widget on your internal or public website with a few easy steps. The following code needs to be inserted into the location of your website where you want the BPMN Quick Guide widget to appear.

```
<iframe src="https://cloud.trisotech.com/bpmnquickguide/" scrolling="auto" frameborder="0" width="100%" height="700px"></iframe>
```

Copy and paste the code above into the location of the website where you wish to have the BPMN Quick Guide Widget displayed. You can change the width and height to suit your design needs.

When the widget is implemented, it will look as below:
